Daniel Frost

Partner | Denver

Tel. 303.634.2038

dfrost@swlaw.com

Main Bio

Dan Frost has represented owners, contractors, engineers and developers in complex construction claims and large infrastructure transactions for more than four decades. He has substantial experience with energy, resources and water projects, including those involving power plants, mines, water treatment plants and oil and gas facilities. Dan focuses on complex litigation and claims presentation, construction and engineering contracts, infrastructure and project development (domestic and international) and project administration and scheduling. He has presented large and complicated claims to court, juries, boards, as well as domestic and international arbitration panels.
